The New York World

Thrice-a-week Edition.

The Thrice-a-week World hopes to be in 1908 a better paper than it has ever been before, and it has made its arrangements accordingly. Its news service covers the entire globe, and it reports every thing fully, promptly and accurately. It is the only paper, not a daily, which is as good as a daily, and which will keep you as completely informed of what is happening throughout the world.

The Thrice-a-week World is fair in its political reports. You can get the truth from its columns, whether you are a Republican or Democrat, and that is what want.

A special feature of the Thrice-a-week World has always been its serial fiction. It publishes novels by the best authors in the world, novel which in book form sell for \$1.50 apiece, and its high standard in this respect will be maintained in the future as in the past.

The Thrice-a-week World's regular subscription price is only \$1.00 per year and this pays for 156 papers. We offer this unequalled newspaper and The Banner together for one year for \$1.65. The regular subscription price of the two papers is \$2.00.

THE CULT.

Mrs. Wayupp—Then you think it is the coming religion?

Mrs. Blase—Undoubtedly. It has an excellent start. It has been in existence a year now and hasn't been pinched by the police yet.—Puck.

NATURALLY.

Reporter—I have a story here, sir, about a human salamander who could live without discomfort in a temperature of 300 degrees.

Editor—Good! That's hot stuff.

WAS HIS KIND OF A SERMON

Old Darky Enthusiastic Over What He Called "Regular Get-Up-and-Walk-Off Sermon."

At the banquet of a Sunday school association the newly-elected state secretary told this story of the "walk-off men."

"An old darky attended services when a high church dignitary preached.

"How did you like the sermon, uncle?" was asked.

"I likes the sermon fine, boss. It was a regular get-up and walk-off sermon."

"When asked what kind that was, he replied: 'It is like this: After the good Lord he fixes up the world, he makes twelve men out o' mud and stands them alongside a wall to dry. He says to them: "Now, you stand here until you are dry as dust and then I'll come back and put some brains into you and make you men."

"Well, some of them they stands and waits to get their brains, while others they don't like to wait, and gets right up and walks off without no brains at all. Them's what you call walk-off men! And a walk-off sermon is the same way—it has some go to it."—St. Paul Dispatch.

A GREAT GAME.

"Well, the summer flirts will soon be playing their favorite game."

"True. Where is your daughter now?"

"Gone south for preliminary practice."

CONFIRMING SUSPICION.

"Do you believe the story that Miss Flirty's eyebrows are made up?"

"Indeed, I don't believe they are as black as they are painted."

If you are a housewife you cannot reasonably hope to be healthy or beautiful by washing dishes, sweeping and doing housework all day, and crawling into bed dead tired at night. You must get into the open air and sunlight. If you do this every day and keep your stomach and bowels in good order by taking Chamberlain's Tablets when needed, you should become both healthy and beautiful. For sale by All Dealers.

LONDON CREATES FASHIONS.

Although Paris undoubtedly has long been the fashion arbiter for the women of Europe, London of late has been making rival claims in that regard and in some instances not unjustifiable by the fact that where British approval has been lacking Parisian innovations have died a speedy death. One London dress-making establishment that pretends to be the equal in prominence of the most famous in Paris, is now making especially attractive and purely British display of spring models about which all feminine London is talking, and it is generally regarded that these are to be taken as the absolute decrees of fashion.

FREAK IN NEST BUILDING.

Many birds that are shy and retiring in other respects, show very little fear of the creaking and groaning of heavy machinery, or the thunderous roar of heavy trains. I recall reading some years ago of a pair of courageous little sparrows that started a nest at one end of a large turn-table in a roundhouse. This turn-table was the same at both ends, and the birds built two nests—one on each end, working one day on one end, and the next day on the other, as the turn-table was reversed. Here, in the midst of din and confusion, they finally selected one of the nests, and raised a happy brood of young.—St. Nicholas.

MAIL CARRIERS WILL FLY.

This is an age of great discoveries. Progress rides the air. Soon we may see Uncle Sam's mail carriers flying in all directions, transporting mail. People take wonderful interest in a discovery that benefits them. That's why Dr. King's New Discovery for coughs and colds and other throat and lung diseases is the most popular medicine in America. "It cured me of a dreadful cough," writes Mrs. J. F. Davis, St. Kenney Corner, Mo., after doctor's treatment and all other remedies had failed. "Excellent for coughs, colds or any bronchial affection. Price 50c and \$1. Trial bottles free at S. E. McGeachy's."

WAS WARPING FROM HEAT

Bandy Legs of Man Watching Fire Horrify Gallant Would-be Rescuer.

The great Chicago fire is recalled by Mr. F. F. Cook in "Bygone Days in Chicago," and he tells this amusing story of Isaac Spear, a well-known watchmaker in the early days. Mr. Spear was very short, and so abnormally bandy-legged as to attract instant attention.

He was in the forefront of the crowd, watching the fire, and at one time became so absorbed in the spectacle that he stood at a point of imminent danger, like one transfixed.

A kindly newsboy, alarmed at the situation, rushed gallantly forward and, tapping him on the shoulder, shouted above the din:

"Say, mister, if you don't come away you'll burn!"

The caution not having the desired effect, the youngster sprang to the rescue a second time. Once more he gave anxious warning, and still Isaac paid no heed.

On returning to a place of safety, the boy, to his horror, observed the little man's deformity. Screening his face with his arms, he charged again into the consuming heat, and, while literally dragging the watchmaker to a place of safety, shrieked in his ear:

"You must come away! You're warping!"—Youth's Companion.

Dysentery is always serious and often a dangerous disease, but it can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has cured it even when malignant and epidemic. For sale by All Dealers.

GLORY OF THE MOUNTAINS.

No lowlander can appreciate the mountain appetite and the facility with which heavy food called "grub" is disposed of. Eating, walking, resting, seem alike delightful, and one feels inclined to shout lustily on rising in the morning like a crowing cock. Sleep and digestion as clear as the air. Fine, spicy, plush boughs for bedding we shall have tonight, and a glorious lullaby we shall have from this cascading creek. Never was stream more fittingly named, for as I have traced it above and below our camp it is one continuous bounding, dancing, white bloom of cascades. And at the very last, unwearying, it finishes its wild course in a grand leap of three hundred feet or more to the bottom of the main Yosemite canyon near the fall of Tamarack creek, a few miles below the foot of the valley.—From John Muir's "My First Summer in the Sierras."

For soreness of the muscles whether induced by violent exercise or injury, there is nothing better than Chamberlain's Liniment. This liniment also relieves rheumatism at pains. For sale by All Dealers.
